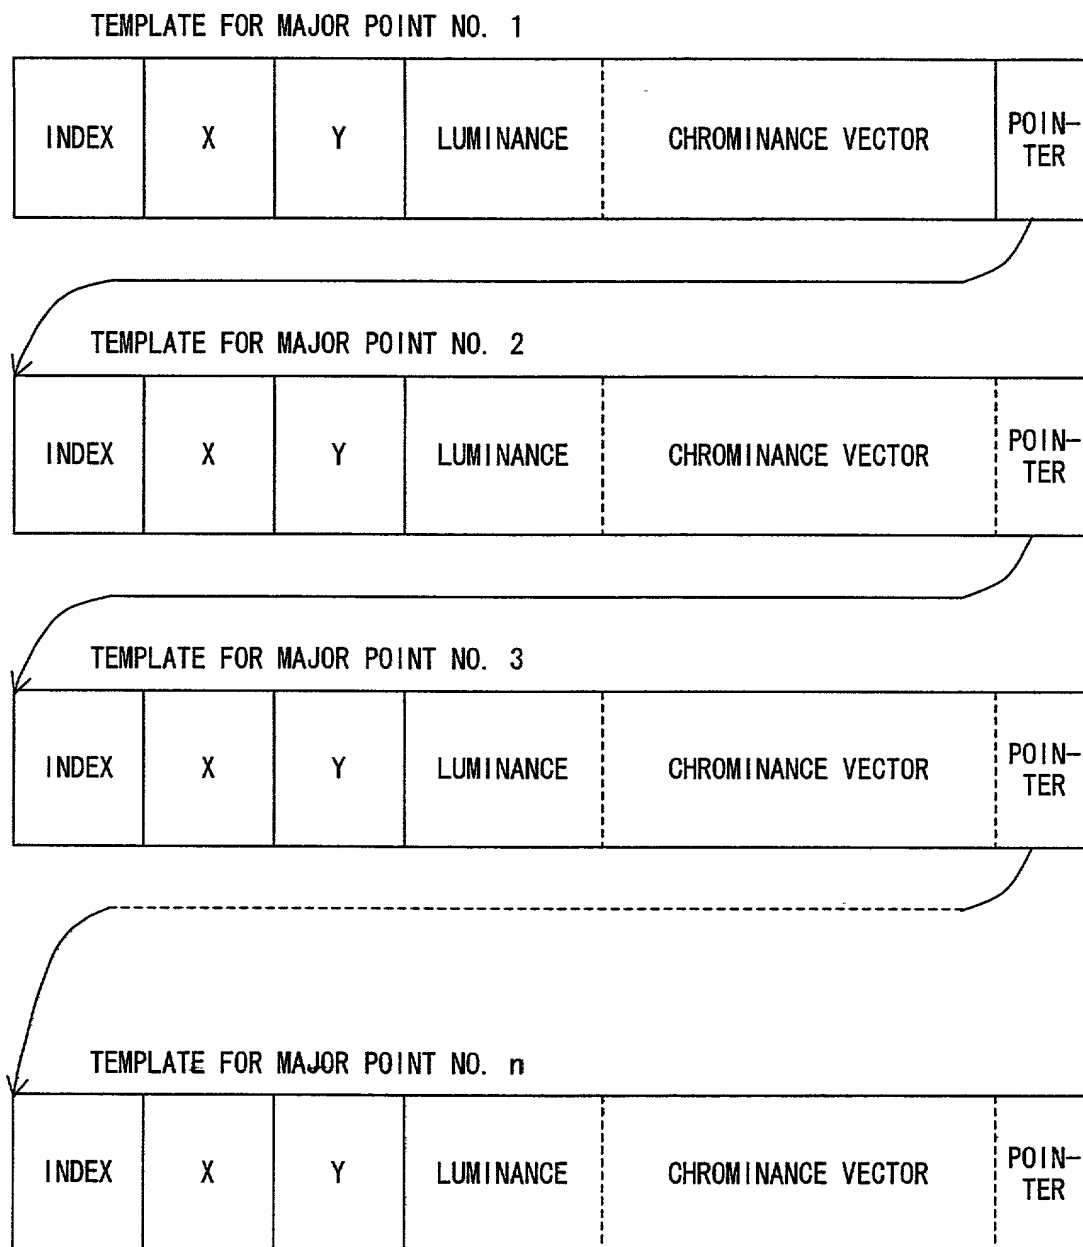

FIG. 13

The diagram illustrates a process flow for incorporating specific parameters and constraints into a generic object network. It is divided into two main sections by a horizontal line.

Top Section:

- On the left is a box labeled "Generic Object Network" with reference numeral 76.
- On the right is a box labeled "SPECIFIC PARAMETER AND CONSTRAINT" with reference numeral 77.
- A large, hatched arrow points from the "SPECIFIC PARAMETER AND CONSTRAINT" box (77) towards the "Generic Object Network" box (76).
- Below each box is a downward-pointing arrow. The arrow under box 77 is labeled with reference numeral 78.

Bottom Section:

This section is enclosed in a large rectangular frame. At the top of this frame is the text:

Specific Object Network
(Actual Object Network OBTAINED BY INCORPORATION A SPECIFIC PARAMETER, ETC.. INTO A Generic Object Network)

Below this text are two boxes:

- On the left is a box labeled "Generic Object Network" with reference numeral 76.
- On the right is a box labeled "SPECIFIC PARAMETER AND CONSTRAINT" with reference numeral 77.
